

We are Open, Safe and Ready to Help You

From the ER, to ambulatory care, to our inpatient rooms, we at SBH Health System have taken every precaution to make sure we are open, safe, and ready to help you with your health care needs.

We've learned a great deal from the pandemic and have put in place thoughtful and structured policies and procedures to protect both our patients and staff. Safety continues to come first at SBH to ensure the highest quality care, protection, support and comfort for you and your family.

This has ranged from the spacing of our ambulatory care waiting room seating to allow for social distancing, to new staff and patient screening procedures, to a rigorous deep cleaning of our facility that includes the use of UV-C light to kill off Covid-19 and other pathogens.

If you need to see a doctor, come and see us – whether it's in person or virtually through telehealth. We're ready to help.
